

ACU Health Clinics – Brisbane Infant and Toddler Development Clinic

Speech pathology services at our ACU Health Clinic (Banyo) run development and Occupational Therapy clinics for infants and toddlers aged birth to three years. Services include individual developmental assessment, customised intervention and education for families and carers.

ACU Health Clinics are university teaching facilities. Our clinic has been specifically designed to provide state-of-the-art facilities for our clients receiving health services delivered in a student teaching context.

Our clinical programs are delivered by students under the supervision of professional practice educators who are all fully-qualified and experienced Speech Pathologists and Occupational Therapists.

WHAT WE OFFER

Developmental services provide assessment monitoring and intervention for infants and toddlers experiencing difficulties in any of these areas:

- interaction with caregivers
- communication
- toileting
- general development
- enrichment programs to stimulate best possible language skills.

If your child has difficulty with feeding or is a picky eater, please see the Feeding clinic flyer.
